

Luca Ferrarini RESUMÉ

Prof. Ferrarini received the laurea degree in electrical engineering (summa cumlaude) from POLIMI in 1988 and a post-laurea degree in it in 1990. Since then, he has been with DEI at POLIMI, where he is now full professor of industrial automation and discrete event system modeling and control.

He is co-author of 5 national and 2 European patents, on the design and testing of automation system for industrial processes. He also co-authored more than 100 scientific publications.

He is a senior member of IEEE, member of the technical committee on manufacturing plant control of IFAC, and national president of ANIPLA (Italian national association for automation). He was partner of the European torero project (total life cycle web-integrated control), started in July 2002 and funded under the EU IST programme.
