

Paulo Leitão

RESUMÉ

Paulo Leitão received the MSc and PhD degrees in Electrical and Computer Engineering, both from the University of Porto, Portugal, in 1997 and 2004, respectively. From 1993 to 1999 he developed research activities at the CIM Centre of Porto, and from 1999 to 2000 at IDIT - Institute for Development and Innovation in Technology, Santa Maria da Feira, Portugal. He joined the Polytechnic Institute of Bragança, Portugal, in 1995, and currently he is Adjunct Professor in the Department of Electrical Engineering of that institute.

His research interests are in the field of intelligent production systems, agent-based and holonic control, reconfigurable factory automation, collaborative production automation and high-level Petri nets. Dr. Leitão is member of the IEEE Industrial Electronics and Robotics and Automation Societies.
